<tr>
<td>Order Placement, Lead Time &amp; Order Cut Offs</td>
<td>In order to meet the Customer’s expected delivery day, Baxter requires appropriate order placement lead-time and order cut off times. Respecting the order lead-time will permit time for resolving order transmission issues or inaccurate Product coding. If a Customer experiences technical difficulty in completing the Purchase Order transmission (eg. EDI order delay, GHX (Global Healthcare Exchange) network delay, or delayed Faxes sent by batch processing) there is a risk that the order may end up being processed late. This may result in expedited freight charges. The official time stamp will be identified by the electronic time stamp on the eCommerce or (Fax) transmissions. Electronic acknowledgements for eCommerce orders should be received by the Customer within one hour. If no acknowledgement is received within one hour, it is the Customer’s responsibility to contact Baxter’s Customer Service Representatives. The Customer order lead-time information for your location is available from your Customer Service Representatives.</td>

In the event that either Baxter or Customer shall be affected by a condition of Force Majeure, such party shall give the other party prompt notice thereof, which notice shall contain the affected party’s estimate of the duration of such condition and a description of the steps being taken or proposed to be taken to overcome such condition of Force Majeure. Any delay or non-performance occasioned by any such cause shall not constitute a default under these Consolidated Terms and Conditions, and the related performance obligations of an affected party shall be suspended during the duration of the Force Majeure condition.</td>
</tr>
<tr>
<td>Product Discontinuation</td>
<td>Notwithstanding any provision of these Consolidated Terms and Conditions to the contrary, if Baxter ceases to manufacture or distribute a Product for any reason (including but not limited to by reason of withdrawal of Health Canada’s marketing authorization for the Product), Baxter shall have the right, without cost or penalty, to remove any such affected Product(s) from Baxter’s Product catalogues and Baxter shall be relieved from its obligations relating to such Product(s).</td>
